The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim 34 is rejected under 35 U.S.C. 102(a) as being anticipated by Chida, Ohnishi (482) or Lindemann.

Each reference teaches a plurality of piezoelectric elements stacked in a first and a second direction wherein at least one piezoelectric element has a length different than some other in the stack. Specifically, note Ohnishi (fig. 1), Chida (fig. 2) and Lindemann (figs. 5, 6 and 10).

Claims 39-44 and 47 are allowed.

The examiner appreciates applicants inclusion of exhibit A which made it clear how claim 34 could be read on fig. 2.
